amongst the serried ranks of capitalists who drove european industrialisation in the nineteenth century the rothschilds were amongst the most dynamic and the most successful establishing businesses in germany britain france austria and italy the family soon became leading financiers bankrolling a host of private and government businesses ventures in so doing they played a major role in fuelling economic and industrial development across europe providing capital for major projects particularly in the mining and railway sectors nowhere was this more apparent than in spain where for more than a century the house of rothschild was one of the primary motors of spanish economic development yet despite the undoubted importance of the rothschild s role questions still remain regarding the actual impact of these financial activities and the effect they had on financial sectors companies and spanish markets it is to such questions that this book turns its attention utilising a host of archive sources in britain france and spain to fully analyse the investments and financial activities carried out by the rothschild house in spain during the nineteenth and early twentieth centuries in so doing the book tackles a variety of interrelated issues firstly fixing the period when the main capital entries sprung from the initiatives taken by the rothschild family how consequential they really were and the sectors they affected secondly quantifying the importance of these investments and financial activities and the weight they had on financial sectors companies and spanish markets as well as in foreign investment in each period thirdly outlining the steps followed and means used by the rothschild house in order to achieve the success in each of their businesses finally analysing the consequences of this phenomenon in the actual growth of spanish contemporary economy both in a general and in a partial scale by exploring these crucial questions not only do we learn much more about the working of one of the leading financial institutions and the development of the spanish economy but a greater understanding of the broader impact of international finance and the flow of capital in the nineteenth century is achieved

although spain is an important member of the eu relatively little is known about its economy and its interrelationship with political forces this book the first of its kind offers a long term view and analyzes this ever changing relationship throughout the 20th century with its various upheavals such as the crisis of the democratic republic and the civil war in the 1930s the long general franco dictatorship from the 1940s until the 1970s and the subsequent transition to democracy from the detailed studies of individual cases specific companies as well as entrepreneurial organizations a very diverse picture emerges contradicting widespread simplistic interpretations of politico economic linkages which demonstrates both the pluralism of the economic interests as well as the complexity of their relationship to the political class

las elecciones a cortes de 1933 supusieron una censura muy importante en la historia política de nuestro país el hecho de que por primera vez unos partidos de oposición derrotasen a las formaciones que controlaban el poder ejecutivo no hizo sino confirmar la consolidación de algo que se había venido anhelando durante mucho tiempo la existencia de un cuerpo electoral independiente de una opinión pública capaz de contribuirse en la pieza fundamental que determinase en última instancia la alternativa de partidos

los socialistas de erandio llevan más de un siglo en el pueblo y más de 125 años desde que se fundara en noviembre de 1896 la agrupación socialista de erandio una de las agrupaciones históricas del socialismo vasco en el caso concreto de erandio no se puede comprender su historia contemporánea y actual sin comprender ni conocer el papel de los socialistas en la misma así este libro pretende ser un homenaje a los cientos de afiliados y afiliadas que han militado y militan en esta organización pretende a su vez rescatar del olvido el nombre de muchas personas que trabajaron por tener un pueblo y unas condiciones de vida mejores

en el año que celebramos el 75 aniversario de la proclamación de la segunda república española su memoria idealizada por unos estigmatizada por otros se resiste a desaparecer qué tendrá la república que no se olvida la república fue desde luego mucho más que el régimen que precedió al estallido de la guerra civil fue una ilusión una gran esperanza fue un revulsivo fue también y sobre todo la primera experiencia democrática se viera desbordada por los extremos aquel régimen cuya proclamación despertó un gran fervor colectivo y alimentó las legítimas esperanzas de buena parte de la sociedad española de la época suscitó también una considerable prevención en otros sectores importantes del país profundamente arraigados en los valores más tradicionales la república no dejó indiferente probablemente a casi nadie al menos en 1936 cuando llegó el momento de la verdad defenderla hasta la muerte o erradicarla para siempre de la historia

se estudia el período histórico comprendido entre dos oasis vascos en la república y la guerra civil el primero fue el oasis católico de 1931 cuando el pnv y el carlismo aprobaron el estatuto de estella para aislar a vasconia de la república española anticlerical mediante un concordato con la santa sede el segundo oasis se dio durante la guerra civil en euskadi desde la aprobación del estatuto y la formación del primer gobierno vasco en octubre de 1936 hasta la conquista de vizcaya por el ejército de franco en junio de 1937 este oasis se manifestó en la ausencia de revolución social y en el respeto a la iglesia como consecuencia de la hegemonía del pnv en el gobierno de aguirre
